Surface Treatment EURASIA: Forum: Surfaces for the metalworking industry

Only less than two months left and WIN EURASIA Metalworking will open its doors for the first time. The show will not just serve as a platform for displaying products and solutions, but also the exchange of knowledge will play a vital role during the four show days.

We are currently setting up a forum at WIN EURASIA Metalworking in Istanbul. Under the auspices of VDMA and Galder we are planning a two-day event on the latest developments on surfaces in the metal working industry. This conference will take place in the seminar rooms at TÜYAP FUARCILIK GRUBU on the 12th and 13th of February.

Do you want to become part of the forum? Then apply to the following subject areas:

- cleaning and pre-treatment
- surface treatment and coating technologies
- resource efficiency & energy efficiency
- environmental protection / reduction of emissions
- improvement of sheet metal processing by surface technology

Deadline for applications 14th of January 2016.

Note: By submitting an application, the applicant agrees to accept the terms and conditions of participation.
